

10th International Conference on Web Engineering Call for Tutorial Participation

<http://icwe2010.webengineering.org>

The Tenth International Conference on Web Engineering (ICWE 2010) will be held from July 5 - 9, 2010 in Vienna, Austria. ICWE 2010 aims at promoting research and scientific excellence on Web Engineering and at bringing together scientists and practitioners interested in technologies, methodologies, tools, and techniques used to develop and maintain Web-based applications and to enable and improve the dissemination and use of Web-related content.

As part of this conference, ICWE 2010 provides excellent tutorials about cutting-edge technologies and best-practices in Web Engineering. We are proud to welcome outstanding experts as tutorial speakers presenting the following topics:

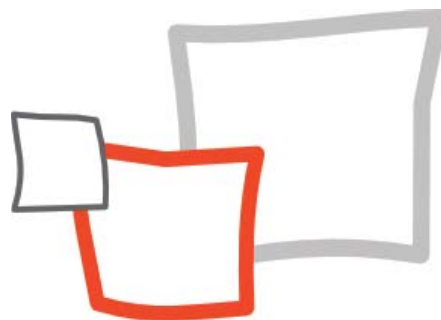

MONDAY, JULY 5TH

■ T1. Engineering Web Search Applications

Marco Brambilla, Politecnico di Milano, Italy
Alessandro Bozzon, Politecnico di Milano, Italy

■ T2. Realizing a Semantic Web Application

Emanuele Della Valle, Politecnico di Milano, Italy

TUESDAY, JULY 6TH

■ T3. Web Accessibility - How to Overcome the Digital Divide

Mario Batusic, JKU Linz, Austria

■ T4. Design Principles, Patterns and Emerging Technologies for RESTful Web Services

Cesare Pautasso, University of Lugano, Switzerland
Erik Wilde, UC Berkeley, USA

REGISTRATION

For participation, please register online for the 2-days option (<http://icwe2010.webengineering.org/Registration>). This option is a flat rate and includes all tutorials (T1-T4) as well as all workshops, coffee breaks, lunches, and evening receptions for Monday, July 5th, and Tuesday, July 6th. For further information, we kindly refer to the ICWE 2010 website under <http://icwe2010.webengineering.org>.
